

6mm 3MP M12 Mount Lens M12-6.0F

Made for 1/2.5" Progressive CMOS Sensor

The M12-6.0F is optimized for AIDA's HD-NDI-MINI, providing a narrower HFOV at around 60°.

This lens will also work on any camera that is M12 type, and Full-HD with a sensor of 1/2.5 or smaller.

MAIN FEATURES

- Optimized for the HD-NDI-MINI
- M12-Mount
- 6mm Focal Length
- Aperture F2.4
- Horizontal Field of View: ~60°

SPECIFICATIONS

OPTICAL

Back Focal Length	8.1mm
